

Competitive Advantages

- Highly qualified and experience human resources.
Training experts who are engaged both upstream & downstream sectors in the oil and gas industry.
- Reputable share holders (SADID Industrial Group & IOEC)
- Eight million hours working with no accident in all its projects that could have disrupted the projects progress, which is registered as a record of its kind.

- T ASDID is on the record of publishing three exclusive books on special subjects related to pipe laying, cable laying & mechanical current modeling projects for two phase flow in the transportation pipelines as well as oil and gas wells.
- T ASDID has a record of efficiency in making its facilities ready to do jobs for its projects.
- T ASDID is on the record of being a successful contractor for design , procurement, construction & installation of 11 offshore jacket units with approximately around 22500 tonnes.
- T ASDID has excellent fabrication yard for implementation of its projects.

No.24,Orfi shirazi Alley, North Shikhbahai St, Mollasadra Ave, Tehran, Iran.

Tasdid Offshore Development Co.

Completed Projects

- › Ilam & Salman regions: Construction of subsea pipe (pipe laying) and platform for installations well head equipment.
- › Reshadat Oil field: R4 Platform, renovation project.
- › Abouzar & Norouz Oil fields: Construction of subsea pipeline (pipe laying) and platform for equipment installation.
- › Salman Slack Catcher Installation Project
- › Combined Heat and Power (CHP) project
- › South Pars Phases 9 & 10: Construction of tripods and bridge for flares.
- › Construction of 16" pipeline from Abadan to Nezamiyeh Ahvaz
- › Reshadat Oil field: Platforms renovation & development project.
- › Reshadat Oil field: Construction of subsea cables and pipelines (pipe laying).
- › South Pars Gas field Phase 19: Offshore jacket construction
- › Project.Forouzan Oil field: Offshore platform construction project
- › Forouzan Oil field: Offshore jacket construction project
- › Hengam Gas field: Offshore platform construction project
- › Hengam Gas field: Offshore Emergency jacket construction project
- › Lab Safid: Construction of Desalter Unit (removes salt from crude oil).

Under Construction Projects

- › Forouzan Oil field: Development & Increasing the field capacity.
- › Ilam-Abouzar field: Construction Of subsea pipeline(pipe laying)
- › Fajar Gas Refinery: Procurement, Shipment, Insulation & Commissioning of SPM project on the EPC construction basis.
- › Construction of five units of jack up drilling rigs project.
- › 6th gas plant operation & maintenance services (phase 15,16 south pars gas field)

● Introduction

Due to well know circumstances Iran Petroleum Industry faced asituation in which the lack of engineering and technical services for its sustainable development particularly in the upstream sector became a noticeable problem. TASDID then was founded in 1981 throgth partnership of TASDID industrial Group and IOEC to be involved in providing innovation, engineering & technical services as well as equipment strengths for the I.R. Iran's Petroleum and energy industrial both in the upstream and downstream sector. TASDID achieved a significant progress in domestic market and endeavored to provide its services to overseas markets through its cost-effective operating model.

TASDID Offshore Development Company provides Engineering, Procurement and Construction (EPC) services as well as Installation & Commissioning services (EPCI & C). TASDID services are primarily focused on the Oil and Gas Industry.

TASDID has been providing these services to the I.R. Iran's Petroleum (NIOC and its subsidiary companies) for Production Facilities & Drillin sector with standards that has met its clients satisfactions.

TASDID is proud that during its long involvement with heavy project both offshore and onshore have had no major incidents due to its high quality of HSE standards.

TASDID is developing its People for Growing its Business and therefore, TASDID is your reliable partner in Iran (Persian Gulf) & in the Caspian Sea region & beyone.

● Tasdid Offshore Development Co.

Feild of activities:

- offshore desk and jacket EPCI
- offshore pipeline, pipelaying & cablelaying EPCI
- onshore activities & services EOCI
- power plant EPCI
- renewable resources of energy activities EPC
- repairing and renovation of platforms, subsea pipeline and marine facilities
- upstream/downstream activities
- drilling services
- field development as first developer Co.
- operation & maintenance (O&M) services
- Pre-com & comm. & startup MDR preparation
- Pre-com & comm. & startup execution
- CMMS

● Certificate and Satisfaction

SCOPE:

Engineering, Procurement, Construction, Installation & Commissioning
Oil & Gas industries (Upstream / Downstream / Offshore / Onshore)

Quality Management System	ISO 9001: 2008
Recognized to excellence	2014 (2stars)
Integrated Management System	IMS
Environmental Management System	ISO 14001: 2004
Professional Health and Safety Management System	OHSAS 18001: 2007
Quality Management System in Oil, Gas and Petrochemical fild	ISO / TS 29001: 2010
Customer Satisfaction	ISO 10004: 2010
